If the development is in a floodplain, the following shall apply:
 This permit is issued with the condition that the lowest floor (including basement floor) of any new or substantially improved residential building will be elevated at least one foot above the base flood elevation. If the proposed development is a nonresidential building, this permit is issued with the condition that the lowest floor (including basement) of a new or substantially improved nonresidential building will be elevated or floodproofed at least one foot above the base flood elevation. The Developer/Owner will provide certification by a registered Engineer, Architect, or Land Surveyor of the "as-built" lowest floor elevation (including basement) or floodproofed elevation of any new or substantially improved building covered by this permit. In "ZONE A" areas, fill in the floodplain cannot cumulatively increase the water surface elevation more than one foot. Fill placed in Floodplain shall not increase sheet run-off on any neighboring properties.

All provisions of the Waverly Floodplain/Floodway Overlay District (Zoning Regulation 11.530), shall be complied with.
